

Naveed Ahmed Khan

Lead .NET & Cloud Solutions Architect

📍 Remote (EST / North America Overlap) | ✉️ naveed.khan@example.com | 🔗 linkedin.com/in/naveed-ahmed-khan | 🌐 github.com/naveed-khan

EXECUTIVE PROFILE

Lead .NET & Cloud Solutions Architect with **10 years of experience** architecting high-availability enterprise SaaS platforms, distributed microservices, and multi-tenant cloud ecosystems on **Microsoft Azure**. Proven leader with deep mastery in **C#, .NET 8 / ASP.NET Core**, container orchestration (**Docker & Kubernetes**), and event-driven architecture. Accomplished track record of leading cross-functional engineering teams (8–10 engineers), spearheading legacy-to-cloud modernizations in the healthcare sector, and delivering systems supporting **15,000+ active enterprise users across 120+ facilities**.

CORE COMPETENCIES & TECHNICAL SKILLS

- Cloud Platforms & Infrastructure:** Microsoft Azure (Azure App Service, Azure Functions, Azure Service Bus, API Management, Key Vault, Blob Storage, Application Insights), AWS (Lambda, EKS).
- Backend & Frameworks:** C#, .NET 8 / .NET Core, ASP.NET Core Web API, Entity Framework Core, LINQ, Node.js, NestJS.
- Architecture & Design:** Distributed Microservices, Multi-Tenant SaaS Architecture, Event-Driven Architecture, Domain-Driven Design (DDD), Clean Architecture, Legacy Modernization (Strangler Fig Pattern).
- Containers & DevOps:** Docker, Kubernetes (AKS), GitLab CI/CD, GitHub Actions, Automated CI/CD Pipelines, Infrastructure as Code.
- Databases & Data Modeling:** SQL Server (T-SQL, Index Tuning, Query Optimization), PostgreSQL, MongoDB, DocumentDB.
- Frontend & Full-Stack:** TypeScript, Angular, React, Next.js, HTML5/CSS3.
- Engineering Leadership:** Technical Strategy, Architecture Decision Records (ADRs), Team Mentoring (15+ devs), Hiring & Technical Interviews, Code Reviews, Stakeholder Management.

PROFESSIONAL EXPERIENCE

HealthTech & Cloud SaaS Enterprise (*Confidential*)

Technical Lead / Lead Software Engineer | January 2023 – Present

Healthcare SaaS & Cloud Modernization | Cross-Functional Team: 8–10 Engineers (6 Direct Reports)

- **Cloud SaaS Modernization:** Spearheaded the end-to-end architectural re-engineering of a mission-critical legacy desktop healthcare platform into a multi-tenant, cloud-native SaaS solution on **Microsoft Azure**.
- **Microservices & Event Architecture:** Designed decoupled microservices using **.NET 8 / ASP.NET Core**, asynchronous message processing via **Azure Service Bus** (Queues/Topics), and serverless execution with **Azure Functions**.
- **Containerization & Kubernetes:** Containerized services using **Docker** and orchestrated deployments on **Kubernetes (AKS)**, establishing zero-downtime rolling deployment strategies.
- **DevOps Acceleration:** Architected automated **GitLab CI/CD** and **GitHub Actions** pipelines, slashing release deployment cycles from **hours to under 15 minutes**.
- **System Scale & Performance:** Scaled the platform to support **15,000+ active healthcare professionals across 120+ facilities nationwide**, achieving a **45% reduction in API response latency**.
- **Cost Optimization:** Reduced infrastructure operating costs by **30%** via dynamic workload autoscaling and container resource optimization.
- **Engineering Leadership & Governance:** Mentored 6 direct software developers, conducted system design reviews, established automated testing benchmarks (>85% code coverage), and led technical recruitment.

Global Digital Solutions Consultancy (*Confidential*)

Senior Software Engineer | May 2019 – December 2022

Enterprise Software & Distributed Services | US & UK Healthcare & FinTech Clients

- **Enterprise Backend Services:** Architected high-throughput RESTful APIs using **C#, .NET Core, and ASP.NET Web API**, processing **10M+ monthly transactions** with sub-100ms response times.
- **Database Architecture & Optimization:** Engineered complex relational schemas, stored procedures, and indexes in **SQL Server**, decreasing critical reporting query latency by **40%**.
- **Frontend Modernization:** Spearheaded the migration of internal operations portals to **Angular and TypeScript**, significantly improving operational staff workflow efficiency.
- **Defect Reduction:** Instituted standardized PR reviews and integration test suites, reducing post-release production defects by **35%**.

Enterprise Software Services Provider (*Confidential*)

Software Developer | March 2015 – April 2019

Telecommunications & Enterprise Solutions

- **Full-Stack Engineering:** Developed web portals and backend APIs in **C#, .NET Framework, ASP.NET MVC/Web API, and Angular/JavaScript**.
- **High-Reliability Messaging:** Engineered automated messaging management modules handling **100,000+ monthly SMS messages** with **99.8% API uptime**.
- **Query Optimization:** Tuned MongoDB and SQL Server queries, improving contact conversation search speeds by **50%**.

FEATURED PROJECT CASE STUDIES

Nursing Home Management Cloud SaaS (*HealthTech*)

- **Role:** Technical Lead / Solutions Architect
- **Tech Stack:** C#, .NET 8, ASP.NET Core, Azure (App Services, Functions, Service Bus, APIM), Docker, Kubernetes, SQL Server, GitLab CI/CD.
- **Impact:** Replaced legacy desktop software with a scalable SaaS platform. Supported 15,000+ staff across 120+ nursing homes, reduced API latency by 45%, and cut cloud hosting overhead by 30%.

Financial Transaction AI Classification System (*FinTech*)

- **Role:** AI / Solutions Architect
- **Tech Stack:** Python, Azure AI / Foundry, Large Language Models, BERT/SetFit, C# / .NET Core APIs.
- **Impact:** Architected a two-tier hybrid classification pipeline. Boosted categorization accuracy from **68% to 94%** while reducing LLM token costs by **65%** via confidence-based fallback routing.

 PROFESSIONAL CERTIFICATIONS

- **Microsoft Certified: Azure Solutions Architect Expert (AZ-305)** — *Microsoft (2023)*
- **Certified Kubernetes Application Developer (CKAD)** — *Cloud Native Computing Foundation (CNCF) (2022)*
- **Microsoft Certified: Azure Developer Associate (AZ-204)** — *Microsoft (2021)*

 EDUCATION & ACADEMIC HONORS

Bachelor of Engineering (B.E.) — Computer & Information Systems Engineering

NED University of Engineering and Technology, Karachi, Pakistan | 2012 – 2016

- **Academic Standing:** CGPA **3.86 / 4.00** (*High Distinction — Top 5% of Graduating Class*)
- **Honors:** Academic Merit Scholarship Recipient (consecutive semesters); Coding Competition Finalist.
- **Capstone Project:** Distributed Resource & Tracking Platform with Real-Time Telemetry and Analytics.
