

Naveed Ahmed Khan

Senior Full-Stack & AI Solutions Engineer

📍 Remote / EST Overlap | ✉️ naveed.khan@example.com | 🔗 linkedin.com/in/naveed-ahmed-khan | 🌐 github.com/naveed-khan

🎯 EXECUTIVE PROFILE

Senior Full-Stack & AI Solutions Engineer with **10 years of software engineering expertise**, specializing in the intersection of **C# / .NET Core backend services**, modern frontend SPAs (**React, Next.js, Angular, TypeScript**), and production **Applied AI / LLM Systems**. Proven track record of designing hybrid LLM classification pipelines that increased accuracy from **68% to 94%** while slashing token costs by **65%**. Experienced in RAG architectures, prompt engineering, few-shot transformer models, and cloud-native application delivery on **Microsoft Azure**.

🔧 CORE COMPETENCIES & TECHNICAL STACK

- **Applied AI & LLM Systems:** Large Language Models (LLMs), RAG (Retrieval-Augmented Generation), Prompt Engineering, Structured JSON Outputs, Confidence-Based Classification Routing, Vector Search.
- **Machine Learning & NLP:** Python, PyTorch, Scikit-learn, BERT, DeBERTa, SetFit, Sentence Transformers, Synthetic Dataset Generation, Model Evaluation (Precision/Recall/F1).
- **Backend & Cloud Services:** C#, .NET 8 / .NET Core, ASP.NET Core Web API, Node.js, Express, Python, Microsoft Azure (Azure AI, Azure Foundry, Azure ML, Functions, App Service, Key Vault, Storage).
- **Frontend & Mobile Development:** React, Next.js, Angular, TypeScript, JavaScript (ES6+), HTML5/CSS3, Redux, React Native, Expo, Firebase (Auth, Firestore, FCM).
- **Databases & Storage:** SQL Server (EF Core), PostgreSQL, MongoDB, Cloud Firestore.
- **Engineering Practices:** Clean Architecture, RESTful API Design, Microservices, CI/CD Pipelines (GitHub Actions, GitLab CI/CD), Docker, Unit & Integration Testing (>85% coverage).

👛 PROFESSIONAL EXPERIENCE

HealthTech & Cloud SaaS Enterprise (*Confidential*)

Technical Lead / Lead Software Engineer | January 2023 – Present

Cloud SaaS & Applied AI Solutions | Team Size: 8–10 Engineers

- **Hybrid AI/ML Classification Engine:** Designed and implemented a two-tier hybrid financial transaction classification system combining Azure AI / LLMs with confidence scoring algorithms.
 - *Tier 1:* Prompted LLM screening to extract top-3 candidates with confidence metrics.
 - *Tier 2:* Automated fallback to granular few-shot prompts and fine-tuned transformer models for uncertain classifications.
 - *Impact:* Boosted classification accuracy from **68% to 94%**, reduced LLM token costs by **65%**, and cut high-confidence inference latency by **50%**.
- **Dataset Engineering & Model Evaluation:** Synthesized, curated, and benchmarked a training dataset of **50,000+ financial transaction records** across 40+ accounting categories using BERT, DeBERTa, and SetFit.
- **Modern Full-Stack Applications:** Developed responsive web dashboards using **React, Next.js, and TypeScript** integrated with high-performance **ASP.NET Core REST APIs**.
- **Mobile Application Development:** Built and launched the **Together** cross-platform mobile app using **React Native, Expo, and Firebase**, scaling to **5,000+ users** with a **4.8★ Play Store rating**.
- **CI/CD & Containerization:** Automated deployment workflows with **Docker and Kubernetes**, reducing release cycle time from hours to **under 15 minutes**.

Global Digital Solutions Consultancy (*Confidential*)

Senior Software Engineer | May 2019 – December 2022

Enterprise Web Portals & Distributed APIs | International US/UK Clients

- **Full-Stack Portal Development:** Spearheaded the frontend transformation of enterprise operations portals to **Angular and TypeScript**, delivering responsive and accessible UI workflows.
- **High-Throughput REST APIs:** Built high-performance backend microservices with **C# and .NET Core**, processing **10M+ monthly business transactions**.
- **Database Query Tuning:** Optimized SQL Server queries and indexing, reducing reporting endpoint latency by **40%**.
- **Code Quality & Testing:** Maintained rigorous code review standards and unit testing suites, decreasing post-release defects by **35%**.

Enterprise Software Services Provider (*Confidential*)

Software Developer | March 2015 – April 2019

Web Applications & Messaging Platforms

- **Full-Stack Development:** Engineered enterprise web applications using **C#, .NET Framework, ASP.NET MVC/Web API, Node.js, Express, MongoDB, and React**.
- **Search & Ingestion Engine:** Built a real-time messaging search interface handling **100,000+ monthly SMS records**, achieving **<80ms search query response times**.

FEATURED AI & FULL-STACK PROJECTS

Financial Transaction AI Classification Pipeline (*FinTech / AI*)

- **Role:** Lead AI & Backend Developer
- **Tech Stack:** Python, Azure AI / Azure Foundry, OpenAI LLMs, BERT, SetFit, C# / ASP.NET Core.
- **Key Deliverable:** Two-tier hybrid classification engine. Replaced inefficient single-prompt baseline (68% accuracy) with confidence-routed multi-tier architecture, achieving **94% accuracy** across 50,000+ financial transactions with **65% lower API token costs**.

Together — Relationship & Reflection Mobile App (*Mobile / Consumer*)

- **Role:** Lead Mobile Developer
- **Tech Stack:** React Native, Expo, TypeScript, Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging.
- **Key Deliverable:** Cross-platform mobile app featuring weekly check-ins, asynchronous responses, and end-to-end privacy data purging. Grew to **5,000+ active users with a 4.8★ rating** and 99.9% push notification reliability.

 PROFESSIONAL CERTIFICATIONS

- **Microsoft Certified: Azure Solutions Architect Expert (AZ-305)** — *Microsoft (2023)*
- **Certified Kubernetes Application Developer (CKAD)** — *CNCF (2022)*
- **Microsoft Certified: Azure Developer Associate (AZ-204)** — *Microsoft (2021)*

 EDUCATION

Bachelor of Engineering (B.E.) — Computer & Information Systems Engineering

NED University of Engineering and Technology, Karachi, Pakistan | 2012 – 2016

- **Academic Standing:** CGPA **3.86 / 4.00** (*High Distinction — Top 5% of Graduating Class*)
- **Specialized Coursework:** Artificial Intelligence & Expert Systems, Distributed Systems, Data Structures & Algorithms.
- **Continuous Learning:** Deep Learning Specialization (Transformers & NLP) — *DeepLearning.AI (2023)*.
